

SUSTAINABLE URBAN TRANSPORTATION

SECTOR OVERVIEW

TRANSPORTATION

- Motorized Mobility vs Pedestrian
Bus, Tram, Metro, Boats, cablecabins etc
Cars, Taxis, Two wheelers etc
? Rollers, Bicycle, electric assistance,
Elevators, mechanical stairs etc.....
- Persons: Multimodal
- and Goods: degrouping centers

URBAN

- Short distances = short duration ?
- Standing / seated
- Administrative borders, coordination
- Connections and transferts

SUSTAINABLE

- **ENVIRONMENT**

Local Pollution / Global (GHG):

Vehicles, Fuels, Energy efficiency

- **SOCIAL**

Staff, Public, sharing, Security

- **ECONOMY**

Affordable, Subsidies, Indirect Costs

CONCLUSION (a manner of...)

- Quality first:
 - public transportation must be attractive
(more than individual cars !)
- Main Enemy: Local Pollution (Health)
- City Space Management:
 - Parking sites, Congestion
- Multimodality
